New school playground equipment – this has been a miss communication between builder and department. Builder wanted to be paid prior to commencement however department will pay invoice 30days after completion.

Karen to order skip bin for rubbish removal and goal is to have new equipment in by end of term.

**Principal Report**

School has been receiving emails and negative talk around and outside of school. Staff are handling issues as soon as they know about them and are trying to keep in front of any issues happening in the school.

Classes are now settled into routines, Kinder has taken a little longer.

**Budget** – Department now needs to see that all school funds have been spent. Any money left is taken away from school and not returned.

School does not make any money off excursions and budgeting has been strict due to above circumstances. Department has given \$47k for teaching principal to have off class, this money has been allocated for the Discovery Learning Program.

Still waiting on department to decide on Teaching Principal (level two) and Assistant Principal (Karen has asked staffing to hold this role) School will receive AP allowance.

Discovery Learning – 31 surveys sent last night. 78% agreed to street library. Some comments made from old Vacy students read to current students who found this really interesting. Next step for 3D printing or lego models to be made. Suggestions made to contact Rotary or Men's Shed to help build.

School to celebrate 160 years this year. Celebrations to be held in Education week on Grandparents and Friends day. Assembly held with invitations sent to past Principals and Vacy families as well as performances by children and possibly dressed in period costumes. (possibly lunch provided)
